QUIK-STOP™ THERMAL BREAK

Quik-Stop™ thermal break is an insulative foam tape that is placed on to the purlins or girts to help minimize the conductive paths between the metal panels and the building structure.

Quik-Stop may be used on the interior or exterior flanges and with adhesive film on one side, applies easily to clean and dry surfaces. Works great in retrofit applications.

PHYSICAL DIMENSIONS

QUIK-STOP™ THERMAL BREAK	ROLL LENGTH	WIDTH	THICKNESS
	108'	Nominal 3"	3/16"

~2.8" wide, other sizes are available on special order. Colors may vary.

Quik-Stop™ is a trademark licensed to Thermal Design, Inc and Simple Saver Services, LLC.
